

EDUCATION

B.Tech, Computer Science & Engineering

Eshan College Of Engineering

2022 - 2026

WORK EXPERIENCE

Python Development

CodSoft, Virtual

Internship • Apr 2024 - Apr 2024 (1 month)

I completed some tasks during my internship. I learned many things in this internship.

TRAININGS

Python Course

Dhaaps, Online

Apr 2024 - May 2024

PROJECTS

Personal Assistant

Mar 2024 - Apr 2024

It's a simple Personal Assistant. I developed it by using Python and it's similar like Google Assistant.

The Assistant replies all the questions which we ask it and give answer in the form of written and audio form.

Tree AI beta version 1.0

Dec 2023 - Feb 2024

I built a tree disease and growth detection system which identifies the requirements of fertilizers and water level and the spread-ed diseases in the tree.

Also the system provides the geo-tag for each tree.

News Website

Sep 2023 - Feb 2024

It's my college project which is a group project and I was the project manager of this project. I have the responsibility of coding part of the project and I use HTML and CSS and some little bit JavaScript for building the project.

This is a simple news website. It was my first website which I have built.

It was my mini-project in 3rd Sem. I developed this website by using HTML and CSS only.

This website was my first step in the way of learning of web development.
